

I, as a paying subscriber and am on the road traveling all the time should not even have to be writing to any one regarding this issue. This service is not funded by you the FCC, or paid by you but is a benefit to those of us who have no desire to have to listen to all the miscellaneous local stuff to hear what it is we are paying for. Please accept this in protest to the NAB`s whining about it not being fair, we pay for this service not them!!!! Not you!!! Thanx!!
